Alive Chat™ Features

Pre-Chat Questionnaire

Capture information before a chat starts by creating a questionnaire to better serve requests and save time.

Proactive Chat Invitations

Send pop-up invitations to chat with visitors to your site.

Respond Quickly to Requests

Live Chat allows a campaign to respond to requests. Answer issue questions, give event information or even help donors contribute quickly and easily through an embedded link. You can even Live Chat on your cell phone.

Chat Transcripts

Chat transcripts are saved chat session conversations between a candidate or campaign staff and web site visitor. Transcripts are e-mailed upon completion of a chat session.

Offline Email Capture Form

Capture all messages and visitor requests when you are offline.

Analysis and Reporting

Measure the performance of your web site. For each chat session, Alive Chat gathers the statistical data and stores it in databases. With Alive Chat Administrator Analysis Tools, you can translate this information into a usable format.

100% Full Customization

Design chat windows to match your campaign web site. Alive Chat is 100% customizable, which allows you to brand your chat windows to match the look and feel of your campaign – giving voters a fully integrated experience.
